

The Island: A single destination for college & career readiness for your digital natives.

Give your high school students the resources they need to be well prepared for college and their careers. As a single online destination, The Island provides standards mastery of the core high school curriculum, as well as SAT and AP exam preparation. The Island is ideal for digital natives because it incorporates their enthusiasm for technology while supporting the learning process in a personalized environment. And with dynamic content, students don't memorize the answers, they learn the topics.
